

Ra 2000ProfileHB

540W Touring high-flux LED moving profile

ORDER CODE: **RA2000PROFILEHB**

The **Ra 2000ProfileHB** is the high-flux variant of the **Ra 2000Profile** designed for touring applications, offering the same footprint and feature set, but engineered around an LED source, which scores 40% higher intensity with lower colour rendering. Powerful, compact but fully equipped with both framing shutters and an animation wheel, all whilst delivering a superior brightness, the **Ra 2000ProfileHB** is an indispensable tool for any show. The 6.300 K LED engine has been custom-engineered to make the **Ra 2000ProfileHB** hit a 18'900 lumen output, and the on-board CRI enhancement filter still allows the possibility to obtain a CRI > 83. The **Ra 2000ProfileHB** CMY system delivers beautiful pastels, stunning saturated colours and powerful primaries. One colour wheel provides split colours, and linear CTO allows the **Ra 2000ProfileHB** to blend in with traditional sources.

This unit is packed with powerful features like a gobo wheel, adjustable framing shutters, an animation wheel, iris, prism and dual linear frost. The highly efficient optical system delivers a 1:8 zoom from 7,5° to 49,6°, and crisp focus to perfectly merge multi-layer effects. The **Ra 2000ProfileHB** is the embodiment of solid-state LED technology.
